

DXDPC02/DXDPC04 Automatic Nylon Triangle/Flat Tea Bag Packing Machine

Features:

1. It can be used in flat bag packing, triangle three-dimensional bag packaging and other form of packing.
2. The machine can automatically finish load, measuring, bag making, sealing, cutting, counting, finished product conveyor, and other functions.
3. Using the sophisticated control system to adjust the action of the whole machine, compact structure, man-machine interface design, convenient operation, easy to adjust, easy to maintain.
4. The length of bag adopts servo motor drive, bag length is stable, accurate positioning and convenient to adjust the machine.
5. Adopt the imported ultrasonic sealing, use the electronic scale metering to cutting-stock, perfect sealing, cutting-stock accuracy.
6. Packaging material tension automatic control device.
7. The machine wills automatic alarm and automatic stop when the machine breaks down.

Applications:

Be used for automatically packing products as green tea, black tea, scented tea, coffee, health tea, herbal tea, and granule and so on. Applicable to the food packaging, pharmaceutical and other industries.

Technical Parameters:

Model	DXDPC02	DXDPC04
Capacity	20-30bag/min	30-50bag/min
Bag Type	triangle/flat	triangle/flat
Measuring Range	1-7g	1-7g
Machine Weight	400kg	650kg
Gas Source	0.8Mpa	0.8Mpa
Air Consumption	0.6m3/min	0.6m3/min
Power	220V/50HZ/2KW	220V/50HZ/2.2KW
Bag Size	L:40-80mm W:60-80mm	L:40-80mm W:60-80mm
Machine Size	L1200*W920*H2060mm	L1600*W800*H2650mm
