

## *Automatic Spice Packing Machine*

How the Automatic Spice Packing Machine For Pepper Seed And Fennel can better ensure that the powder seasoning has clean and hygienic packaging, solve various problems, and is more beautiful, can attract more consumers' attention and promote his sales in the market. Become the need of market development.

As a professional Automatic Spice Packing Machine For Pepper Seed And Fennel manufacturer, our company keeps following the needs of the industry and brings high-end production and requirements. And make changes in the manufacturing of Automatic Spice Packing Machine For Pepper Seed And Fennel, and let them use stainless steel materials for production, to meet the market demand for high-quality goods, and pay more attention to the improvement of user experience, get more consumer satisfaction, let powder seasoning packaging The machine has a better sales volume.

After all, only by the needs of users and seasoning manufacturers can they achieve greater success, so the Automatic Spice Packing Machine For Pepper Seed And Fennel can only bring more long-term development to itself if it starts from the actual needs of customers. Constantly using superb science and technology, and accumulating more experience, letting you transform and upgrade in all aspects, so that the quality of the Automatic Spice Packing Machine For Pepper Seed And Fennel is better, so that it has a beautiful appearance, and also makes his operation and use more Convenience.

**Technical Parameters:**

Packing speed (Bag/Min)	30-60
Making bag size	L:30-170mm
	W:30-120mm
Maximum outer diameter of reel paper (mm)	No more than 240mm
Calculate range (ml)	5-100
The Thickness Of The Packing Film (mm)	0.03-0.10
Working Voltage	220V
The Shape Of The Bag Making	Four side
Power	1.5KW
Net weight	290KG
Outside Dimension (mm)	650×900×1550
