

## *1DC-2K One Weigher Granule Filling Machine*

One weigher granule filling machine 1DC-2K has filling scope 20-2000g. 2K means the max. filling weighing is 2 kilogram. One weigher granule filling machine is semi-automatic filling and packing machine, mainly suitable for the quantitative packaging of granular, granular powder mixed, strip, block, and other materials. Such as: pesticides, fertilizers, feed, chinese herbal medicine, chinese medicine granules, premixes, detergents, snack foods, candy, seeds, peanuts, salt, monosodium glutamate, chicken, seeds, food, hardware and other granular materials quantification Fill packaging.

### **Features:**

1. Chinese and English LCD touch screen
2. PLC control, simple and easy to understand
3. High-precision electronic weighing scales, high precision
4. All stainless steel structure, easy to clean and corrosion-resistant
5. Artificial bag, photoelectric induction cutting
6. Vibrator feeding, fast speed, high precision

### **Technical Parameters:**

- Measuring range: 20-2000 grams
- Packing speed: 1-30 bag/minute
- Packaging Accuracy:  $\pm(0.2\%-0.5\%)$
- Power/Power: AC220V/50Hz/500W
- Dimensions: 820×760×1900(cm)
