

TL-1000 Cup Packaging Machine

This cup packaging machine adopts touch screen, PLC, servo motor drives two-way to count cups. All imported components and parts choose international famous brand; The body is of compact construction. It can reach the advantages of stable performance, high precision, fast speed and simple operation.

The cup packaging machine is convenient for cup making supplier, directly to count how many cups you want to package.

Features:

1. Servo Motor drives counting screw to set the count in need, accurate and convenient.
2. PLC Touching Screw Control.
3. Automatic blanking continuous counting.
4. Small ang Light, it can be moved anytime.

Technical Parameters:

TECHNICAL PARAMETER	
Model	TL-1000
Packaging Type	H-type Three-side sealing
Film Thickness	0.02mm-0.06mm
Max. Film Width	300mm
Packaging Length	150mm-700mm
Packaging Height	50mm-80mm
Max. Packaging Speed	10-30 bags/min
Rated Power	3.8kw
Power Supply	220v
Dimension	L5500mmxW1200mmxH1080mm
Weight	About 680kg
