

KY-C04 Multifunctional Granule Vertical Filling Packaging and Sealing Machine

KYC04 grain pouch food packing machine is an intelligent weighing automatic quantitative packaging machine, PLC control. Suitable for pesticides, fertilizers, veterinary drugs, premixes, additives, washing powder, salt, monosodium glutamate, chicken essence, sugar, seeds, rice, snack foods, hardware and other granular, quantitative packaging of materials. grain pouch food packing sealing machine.

Feature:

1. Four said to work alternately, the packaging speed is fast;
2. Strong compatibility and easy to use in other packaging equipment;
3. High precision digital sensor; vertical packaging machine for granule peanut
4. The weighing bucket can be directly disassembled, and the cleaning is very convenient ;
5. PLC system control, advanced technology, easy to operate, more reliable use.

Specification:

Model	KY-C04
Power	400W
Bucket capacity	0.8L
Packing range	20-1000g
Machine material	stainless steel
Packing speed	1200-2000bag/h
Machine weight	180KG
Dimension	1250*910*2100mm
