Automatic Cosmetics Cellophane 3D Packing Machine for Large Boxes GGB-400A

Function of Automatic Cellophane 3D Packing Machine for Large Boxes

This GGB-400A automatic cosmetics wrapping machine can fully automate the packing process of cosmetics, perfume box, cigarette case, medicine box, etc, achieving exact perfect packing effect. The automatic overwrapper can accurately position the film and apply heat only at discreet points to produce a very tight, high quality wrap.

Features of Automatic Cosmetic Overwrapping Machine

- Flexible to overwrap different product sizes by one machine;
- Wrap boxes tightly using polypropylene, cellophane, BOPP, clear and printed films;
- Anti-counterfeiting, moisture-proof, dustproof;
- Improve product added value, improve the quality of products, improve product packaging

Technical Parameters:

Model	GGB-400A
Capacity	15-35bag/min
Packing size	(L)35-300mm
	(W)40-200mm
	(H)16-125mm
Power	380V 50—60Hz
Total power	6.5Kw
Heating power	3.5Kw
Working Air Pressure	0.5-0.75Mpa
Transmission rack	1650*350*950 (mm)
Size	2350*900*1650mm(L*W*H)
Weight	800kg
Packing Material	OPP/BOPP/PVC
