

YG-1 Semi-automatic Magnetic Pump Liquid Filling Machine

This filling machine is equipped with magnetic pump; it is good for filling water, juice, essential oil, solvent etc. This machine can be controlled by pedal switch or work automatically. It is widely used in food, drinks, and daily chemical industries.

Technical Parameters:

- Machine model:YG-1
- Machine voltage:110/220V 50-60HZ
- Power:40W
- Filling accuracy:±1.5%
- Max flow rate:3L/min
- Machine size:350mm*322mm*210mm
- Machine weight: About 8.25kg
- Package size:450mm*415mm*250mm
- Package weight: About 9.3kg
