

## ***XFG-F Automatic Premade Bag Powder Filling and Packing Machine***

Automatic Premade Pouch Filling and Sealing Machine is used for the flat bag, standup bag, bag with zipper.

With the powder auger feeder device, the machine can be finish the process of feeding, weighing and packing.

Application: Different powder product, such as flour, flavoring, monosodium glutamate, milk powder, dextrose, chemical powder, refined sugar, pesticide, fertilizer, etc.

### **Technical Parameter**

Capacity	15-30bag/min
Bag size	宽Width:150-250mm, 长Length:250-350m
Filling weight	2000 g/bag (max)
Bag sealing	热封Sealing by heat and pressure
Power supply	AC380V±10%, 3-phase 50Hz
Power consumption	2 Kw
Air Consumption	0.4m <sup>3</sup> /min at 5-8 kgf/cm <sup>2</sup> Air compressor as source of pneumatic power supply is by customer
Machine weight	1200kg
Dimension	W*L*H 1140*1500*1560mm
