

Syringe Assembling Machine ZZ-001IV

Our Syringe Assembling Machine is used for assembling syringe automatically. It can produce all kinds of syringes, including luer slip type, luer lock type, etc.

Our Syringe Assembling Machine adopts LCD display to display the feeding speed, and can adjust the assembly speed separately, with electronic counting. High efficiency, low power consumption, easy maintenance, stable operation, low noise, suitable for the GMP workshop.

Technical Parameters

Model	ZZ-001IV
Applicable Specification	2ml~50ml
Production Capacity	150-250pcs/min
Overall Dimension	4200*3000*2100mm
Weight	1500kgs
Power Supply	AC220V/3KW
Compressed Air Flow	0.3m ³ /min
