

L-1000 Vertical External Vacuum Pump

Jieding produces a 1000 vertical external vacuum packaging machine suitable for vacuum sealing and fresh-keeping packaging of tea, grains, rice and millet, clothing and quilts, books, calligraphy and painting, dry goods and specialties, traditional Chinese medicine goji berries, chicken, duck, fish and meat, marinated seafood, hardware accessories, screw electronic accessories, fruits and vegetables, flour and seasoning, and other products.

Features

- Sealing on both sides: more products can be placed at one time
- Double pump power: faster speed, cleaner pumping
- Flat barrel design: items can be placed flat, shorter vacuum time
- Key computer board operation: simple operation, easy to learn and use, old people will use
- Small size: does not occupy space, suitable for family, community or small stores
- Machine sound is low: the work does not affect other people
- Adjustable vacuum degree: the vacuum degree of tightening and loosening can be adjusted
- Unlimited vacuum bag: suitable for all kinds of smooth surface, grain, aluminum foil, pure aluminum, tea and other vacuum bags

Technical Parameter:

1000 cabinet type external vacuum packaging machine	
(v/Hz)voltage	AC220/50
(W)Motor Power	980
(W)Sealing Power	500
(Kpa)Ultimate Vacuum Pressure	85
(pcs)No.of Sealing Bars for Each Chamber	1
With inflation function	Inflatable
(mm)Sealing Length	1000
(mm) Sealing Width	8
(m ³ /h)Vacuum Pump Rate	20
Material for Vacuum Chamber	Stainless steel 201
(LxWxH) (mm)Dimension	1100*420*1030
(kg)Net Weight	105
(LxW)(mm) Working platform size	600*400
