

YB-DS8 8 Tunnel Automatic Tablet Electronic Counting Filling Machine

YB-DSL8 8 Tunnel Automatic Tablet electronic counting filling Machine compared with similar products on the market, it has incomparable outstanding advantages in terms of performance, quality, appearance, etc., and enjoys a good reputation in the market. Weibang summarizes the defects of past products, and continuously improves them. The specifications of YB-DS8 8 Tunnel Automatic Tablet electronic counting filling Machine can be customized according to your needs.

The bottle stop device on the bottle delivery track of the conveying bottle mechanism blocks the bottles conveyed by the upper equipment at the bottling position and waits for filling. The medicine enters the medicine warehouse in an orderly manner through the vibration of the feeding corrugated plate. The medicine warehouse is equipped with a counting photoelectric sensor.

Features:

- 1) Strong compatibility, capable of counting and bottling solid preparations or solid particles such as tablets (including special-shaped tablets), capsules, soft capsules (transparent and opaque), pills;
- 2) Vibration blanking: 8-channel vibrating uniform blanking, unique flap sub-packaging mechanism for blanking, uniform and stable discharge, and no damage to drugs;
- 3) Anti-high dust: adopting the company's anti-high dust photoelectric sensor technology, it can work stably even in the case of high dust;
- 4) Accurate counting: the photoelectric sensor counts automatically, and the bottling error is less than the national standard;
- 5) The special structure of the leaking mouth can prevent the medicine from being blocked, and the medicine bottle with a small bottle mouth can also be filled quickly (optional);

- 6) High degree of intelligence, with multiple detection and alarm control functions such as no bottle, no number, fault self-inspection, etc.;
- 7) Supporting functions: automatic detection of lack of bottle photoelectric sensor, automatic shutdown;
- 8) Simple operation: intelligent design is adopted, and various operating parameters can be set according to needs;
- 9) Easy maintenance: operators only need simple training to operate, disassembly, cleaning, and replacement of parts are simple and convenient, and no tools are required;
- 10) Sealed and dust-proof: equipped with a dust removal box to reduce dust pollution (optional).

Technical parameters:

Models	YB-DSL 8
Equipment name	Fully automatic 8-channel electronic counting machine
Applicable objects	Pills with a diameter of less than 20 are compatible with capsules 0-5, soft capsules, diameter 5.5-diameter 22 plain tablets, special-shaped tablets, sugar-coated tablets
Production speed	10-40 bottles/min
Power supply	220V/50HZ 0.6KW
Gas consumption	0.6Mpa 3.5L/min
Equipment size	1360*1530*1700
Weight	320KG
