

ZX-4 Inline Type Plastic Jar Heat Sealing Machine

ZX-4 Inline Type Bottle Sealing Machine, is known as a bottle heat sealer. It is an automatic and powered machine that is generally used to heat seal roll film into individual bottles. Besides, the bottle sealing machine creates a sealing barrier that shields the inside substances and prevents liquids from leaking and spilling.

Our inline bottle sealers are widely used in daily chemical, food, beverage, pharmaceutical, oil and other industries like

Food & Beverage: milk and yogurt drinks, protein shakes, fruit juice, aloe vera juice, coconut water, tea, coffee, sesame sauce, ketchup, chili sauce, peanut butter, salad, hummus, and more.

Daily chemical: dish washing detergent, shampoo, lotion, toilet detergent, laundry detergent, disinfectant, hair gel.
