

K10-S Prefillable Glass Syringe Filling and Closing Machine

Functions and features:

- the syringe feeding is by manual, one by one.
- Automatic filling and automatic vacuum closing (equipped with an external vacuum pump) .
- Extraction of vacuum to add plug automatically.
- Syringe tube out automatically.
- Compact size, compact structure.

Technical Parameter:

Suitable for	viscosity 3000-7000 cP
Syringe volume	0.5、1、1.5、2.25、3ml
Filling accuracy	$\leq \pm 1\%$
Filling nozzles	1 piece
Speed	300-500 pieces/hour
Total power	0.8 Kw
Compressed air	0.55-0.75 Mpa 10L/S
Vacuum system	6×10^{-2} Pa 15L/S
Overall dimension	480L×480W×950H mm
Weight of basic machine	130 KG
