

WP-480FB/680FB/880FB Probiotics Powder Packing Machine

Probiotics powder packing machine can arbitrarily set the packaging weight, precise measurement, and packaging speed according to production needs. Bag size can be adjusted freely.

Productstroduction

1. Material contact parts are all made of 304 stainless steel, complying with GMP requirements.
2. Reliable performance, easy operation, high level of automation, the probiotics powder packing machine whole machine adopts PLC automatic control.
3. Probiotics powder packing machine are suitable for packaging various powder materials in the pharmaceutical, food, chemical and other industries, such as: flour, coffee powder, lotus root powder, soy milk powder, milk powder, meal replacement powder, etc.
4. Precision Bag Length Adjustment: Equipped with servo motors, the machine seamlessly adjusts bag lengths with unparalleled precision and ease. The user-friendly interface allows for straightforward operation, ensuring seamless integration into any production line.
5. Intuitive Human-Machine Interface (HMI) Control: The entire system operates on a robust HMI platform, offering a secure and stable operating environment. This feature guarantees smooth operation and reliability, minimizing downtime and maximizing productivity.

Product parameters

Model	WP-480FB	WP-680FB	WP-880FB
Capacity	100-200 bags per min	100-200 bags per min	100-200 bags per min
Filling range	1-50g	1-50g	1-50g
Size	(L)50-150mm(W)15-50mm	(L)50-150mm(W)15-50mm	(L)50-150mm(W)15-50mm
Power	4200W	4200W	4200W
Weight	880kg	880kg	880kg
Dimension (L*W*H)	850*1050*2350mm	850*1050*2350mm	850*1050*2350mm
