

DZ600-2SB Double Chamber Vacuum Packager

Product Application

1. DZ600-2SB double chamber vacuum packager is featured by automatic processing of vacuuming, sealing, printing, cooling in one operation.
2. It has double vacuum chambers.
3. Operator can prepare bags for next vacuum packing in another chamber when one chamber is packing.
4. Therefore it has higher efficiency than single chamber machine.
5. It is widely used in vacuum packing for the food, pharmaceutical, aquatic, chemical and electronic industries.
6. Vacuum packing can prevent the products from oxidization and mildew, as well as corrosion and moisture.
7. So it prolongs the life and freshness of the products over a prolonged storage time.

DZQ-2SB series vacuum and gas filling machine fills the bag with some kind of gas, such as nitrogen, after vacuuming the bag. Nitrogen gas helps to have longer freshness time than vacuum state.

Technical Parameters

Model	DZ600-2SB / DZQ600-2SB(with gas filling)
Power source	220V/50Hz
Power	3.1KW
Sealing speed	1-4 times/mins
Work room size	L670×W540×H110mm
Sealing length	600*10mm
HS CODE	8422400000
Weight	320kgs
External size	L1550×W850×H1020mm
