

## KYG2-5K Auto Granule Premade Bag Vacuum Machine

This machine consists of one set linear weigher for weighing and filling, one set bag given type vacuum packaging machine, one set take-off conveyor, it own functions of automatic weighing, filling, bag giving, vacuuming, sealing and taking off. It is suitable for granules, such as: rice, miscellaneous grains, beans, cashew nuts, etc.

### Technical parameter:

Model	KYG2-5K
Packing range	0.25~5kg
Packing speed	700-800 bags/hour
Packaging error	2~5g
Power consumption	AC380V 50HZ 2.5KW
Gas source requirements	0.6Mpa 4m3/h
Appearance size	length 2440*width 2445*height 2908 (mm)
Vacuum degree (MPa)	-0.07-0 (adjustable)
