

HG Horizontal Shrink Tunnel (HH Series)

INFORMATION

1. All SUS304 stainless steel frame, elegant and compact, non-coating process, pollution free.
2. 3-step heat isolation design for energy saving and operator protection.
3. Digital control, internal circulation keeps temperature consistent and shrinking effect perfect.
4. Equipped with high-level VFD (Variable Frequency Drive) that makes controlling of wind speed easy.
5. Unique wind board design makes controlling of wind direction easy and flexible, able to adapt to different bottles.
6. Durable electric (quartz) heater tube ensures efficient heating.
7. Panel is embedded to prevent operators changing setting accidentally.
8. Heating can be stopped immediately, or maintained by timer.

SPECIFICATION

機 型 Model	HH-1900
長×寬×高(mm) Dimension(L x W x H)	1570x860x1280mm
重量 Weight	300kg
電 源 Electric Power	AC 3ψ 5~9KW
電熱管 Electric Thermal Tube	6 pcs

*All specification and characteristics are subject to change without notice.

*本司基於研究改進之必要，因此保有外觀尺寸規格等修改之權利。

*Option: CE approval, SH series with E suffix are CE certified models.

*另有 CE 規格可供選擇，機型後碼加(E)為 CE 機種。
