

## YGF24-8 Rotary Type Edible Oil Filling Machine

The edible oil filling machine is suitable for edible oil, olive oil, peanut oil, vegetable oil, corn oil, etc. The edible oil filling machine adopts PLC program control, photoelectric sensing, pneumatic execution.

The edible oil filling machine use international famous brand electrical components. The main power cylinder adopts German Festo double-acting cylinder and magnetic switch.

The edible oil filling machine is easy to maintain, can be easily disassembled and cleaned without any tools, and is easy to adjust.

Adjusting the measurement, you can adjust the measurement to a close range and then fine-tune it.

### Parameter

Model	YGF18-6	YGF24-8	YGF32-10
Filling Heads	18	24	32
Capping Heads	6	8	10
Filling Volume	200ml-1000ml, 500ml-2000ml		
Capacity (B/H)	7000	10000	16000
Filling Tolerance	≤4%
