

## *DZ-650KH Fully Automatic Rice Vacuum Packaging Machine*

Rice vacuum packing machine can vacuum rice package and shape it square and flat.  
The lid can close automatically by pressing the start button  
The transparent lid allows you to see clearly during packaging.  
This vacuum machine is an ideal option for grain bean and powder product as well.

### **Product Description**

#### **Advantage**

- This Rice vacuum packing machine can shape products into square and flat forms without the need for any molds.
- The lid automatically opens and closes, saving time and effort.
- It uses a PLC touch screen to set various parameters.
- Equipped with a vibrating plate to enhance product appearance.
- It improves the appearance of beans, grains, rice, and other products.
- The entire rice vacuum packing machine is made of stainless steel.
- The vibration system can be turned on or off, suitable for standard vacuum packaging.

#### **Description**

The Vacuum Packaging Machine is a high-performance packaging solution specifically designed for vacuum sealing rice and other food products. This machine effectively removes air from the packaging, ensuring that the rice is preserved in a vacuum-sealed environment, which helps extend shelf life, prevent spoilage, and maintain product freshness. With adjustable settings for vacuum time and sealing temperature, it allows for precise control over the packaging process, making it ideal for large-scale rice packaging operations. The durable construction and easy-to-use

interface make this machine perfect for businesses seeking to package rice efficiently and cost-effectively while maintaining high-quality standards.

### Technical Parameters

Model	DZ-650KH
Voltage	220/380V 50-60Hz
Pump Power	1.8kw
Pump Capacity	20m <sup>3</sup> /h (x2)
Sealing Length	650mm
Sealing Width	10mm
Chamber Size	740x610x100mm
Dimension	860x700x940mm
Weight	≈225kgs
Certification	CE ISO
