

GJFM-2GP Automatic Gear Pump Servo Drive High Precision Body Lotion Tacking Filling Machine

Controlled by servo motor, this automatic filling machine is suitable for filling thicker liquid like lotion, liquid soap, laundry detergent. The filling nozzle will follow the bottle during the filling process and fill the material while moving, it has faster filling speed and higher filling accuracy.

Parameter

Model	GJFM-2GP
Power supply	110/220V 50-60HZ 5KW
Filling pump	Gear Pump
Filling range	100-3000ml
Bottle size	H=80-180mm W=15-120mm
Working speed	About 20-80 bottles/min (2 heads)
Filling accuracy	About $\pm 0.5\%$
Air pressure	About 0.5-0.8MPa
Machine size	About 2900*1400*1980mm(L*W*H)
Machine weight	About 390kg
