

ZBS83A Steam Shrink Label Machine

The steam shrink label machine is widely used in various plastic bottles with POF, PVC, PE, PP labels. It is our newly developed shrinking machine.

Features

1. The steam shrink label machine uses steam as the heat source, fast speed, uniform heating temperature, stable and reliable.
2. The steam shrink label machine adopts waterproof design, with S/S water collector at the bottom, which can collect condensed water.
3. The steam shrink label machine adopts S/S structure, easy to operate and maintain.
4. 5-section design in shrink tunnel, independent temp. Control in each section, as well as height adjust and distance adjust between objects. Any shape bottle is able to reach nice-looking shrink effect after simple adjust.

Technical Parameters

Model	ZBS83A
Voltage	220V 50-60HZ
Power	150W
Conveyor motor	AC120W/220V
Conveyor speed	0-10m/min
Max.loading	15KGS
Shrink tunnel	1350*180*380mm
Max packing size	Φ1120 x 350H mm
Capacity	5000~15000 B/H
Steam Pressure	0.1Mpa
Steam Consumption	24Kg/H
Shrink temperature	75~85°C
Machine size	2400*430*1350mm
Machine weight	150KGS
