

Magnetic Pump 6 Nozzle Liquid Facial Oil Cosmetic Serum Setting Spray Glass Bottle Liquid Quantitative Filling Machine

Main Feature

- ▶ Equipped with magnetic pump, this machine is suitable for low viscosity liquid like massage oil, facial serum, body oil, skin toner, makeup remover etc.
- ▶ Servo motor control the quantitative filling, enter certain number to set filling volume, easy to operate and has high filling accuracy.
- ▶ Can work with automatic capping and labeling machine to realize automated production
- ▶ The number of filling nozzles can be customized as production need
- ▶ The filling component part can be disassembled and used separately.

Parameter

- Voltage: 110/220V 50-60HZ 1350W
- Max flow rate: 6000ml/min
- Filling pump: Magnetic pump
- Working speed: About 12-30 bottles/min
- Filling range: 5-3000ml(recommend)
- Filling nozzle size: OD6 & 8 mm
- Suitable bottle height: About 5-40cm
- Suitable bottle diameter: ≤100mm
- Package size: About 1990*560*540mm+720*560*380mm
- Package weight: About 118kg+42kg
