

Automatic Popcorn Kit Butter Sachet Granule Paste Filling Sealing Packing Machine With Mixer and Heater

Main Feature

- ▶ Film pulling structure is driven by servo motor, this sachet packing machine has high packaging quality.
- ▶ two filling lane, it is suitable for packaging combination products of paste and granule into sachet like popcorn kit
- ▶ For filling granule, it fills material according to measuring cup size, more precisely
- ▶ The part of the machine body in contact with the material can be customized with food-grade stainless steel, this ensures the production quality

Parameter

- Power supply: AC220V 50-60HZ 1.5KW
- Filling range: 1-100g
- Bag size: 60-250mm(L)*50-360mm(W)
- Working capacity: 10-25bags/min
- Filling pump: Piston pump
- Measuring type: Measuring cup
- Suitable packaging film: BOPP/Polyethylene, Aluminum/Polyethylene, Paper/Polyethylene, Polyester/Aluminizer/Polyethylene, Nylon/CPP
- Machine size: About 850*1100*1900mm
- Machine weight: About 350kg
- Package size: About 1440*1150*2240mm
- Package weight: About 500kg
