

SH-XG1870DV Automatic Tabletop 4 Wheel Screw Skin Toner Spray Bottle Cap Capping Outer Cover Pressing Machine

Main Feature

- ▶ This machine has two working structure, one for tightening caps, one for pressing outer covers.
- ▶ Machine has a compact design and is suitable for small scale production of spray bottles.

Parameter

- Machine voltage: 110/220V 50-60HZ 500W
- Suitable bottle height: 60-270mm
- Suitable bottle caps diameter: 18-70mm
- Working speed: 20-40 BPM(depending on bottle and caps)
- Working pressure: 0.4-0.6 MPa
- Size of air compressor connector: OD 8mm
- Conveyor length: About 2500mm
- Machine size: About 2600*640*1000mm
