

Multifunction Automatic Boxing/Carton Machine

The machine is the high-tech products which integrates electricity, gas, light. The products is suitable for boxing or carton the Aluminum-Plastic blister card, medicine bottle, cosmetic, poker etc. The machine can automatically finish all jobs such as manual folding, paper box opening, and the stuff boxing or cartoning, batch number printing, box sealing. It can be used alone or be linked with the other device.

Features:

- 1、 Adopt PLC automatic control system, frequency conversion. The electrical components adopt international famous brands.
- 2、 Photoelectric system monitors all parts moving. If there is malfunction during the running, the wrong place will be shown and the machine can stop automatically.
- 3、 Reject automatically the box which is lack of stuff or specification.
- 4、 If the stuff or specification lack, the paper box will stop feeding.
- 5、 Performance is stable. The operation is easy and convenience.
- 6、 The machine can instead of 15-20 the workload of workers.

Main Technical Parameters:

Production speed	50-90 pcs/min
Box quality requirement	250-350g/m ² (according to its dimensions)
Box dimension range (L*W*H)	(70-180mm)*(35-85mm)*(14-50mm*)
Leaflet quality requirement	55-65g/m ²
Unfolded leaflet dimension range (L*W)	(80-300mm)(70-210mm)
Fold range	1-4 folds
Compressed air working pressure	≥0.6mpa
Air consumption	20m ³ /h
Power supply	380V 50 Hz
Motor power	1.5Kw
Machine dimension (L*W*H)	2800*1350*1600mm
Machine net weight	1200kg
