

VM-400 Self-Adhesive Labeling Machine

Self-Adhesive Labeling Machine is widely used for the labeling of round containers in food, medicine, fine chemical and etc, such as oral liquid bottles, ampoule bottles, syringes, batteries, hoses, cultural supplies and so on. This machine adopts servo motor for control. The human-machine touch screen is convenient and easy to operate; the rich failure display can realize high-speed labeling.

Technical Parameters:

MODEL	VM-400
DRIVE	Servo motor driven
LABELING SPEED	200-400pcs/minute
LABEL SIZE	W:10-90mm L:15-100mm
PRECISION	+1mm(Subject to roundness and verticality of the bottle)
LABEL ROLL	Max:300mm
LABEL CORE	Stander:75mm
MACHING SIZE	2500x1300x1650mm
WEIGHT	200kg
POWER	AC110V/220V 50/60HZ 1200W
