

MK 103 Small VFFS Packaging Machine

The MK-103 is an small automatic vertical form fill seal packaging (VFFS) machine designed to package pastes, semi-viscous and viscous products. This machine uses volumetric paste pump dosing system and is integrated with continuous type sealing system to produce 3 side sealed and 4 side sealed pouches / bags.

Adding to its versatility, the 100 series can be integrated with most filler for granules, liquids, pastes, sticky powders, snacks and food grains etc.

Application:

Pastes, creams, viscous liquids like Tomato ketchup, ginger paste, mayonnaise, milk caramel etc.

Features:

- Robust, compact and easy to maintain
- Lowest power consumption requires single phase power only
- Easy to operate hence no need of skilled labor
- All contact parts of SS food grade

Technical Specifications:

Filling range	1 to 100 ml / Gms
Output Speed	up to 25 PPM
Packaging Material	Any heat sealable film, laminated film in roll srock
Bag Size	W: 30 to 150mm
	L: 40 to 200 mm
