

Powder Package Machine ES-60G

This machine is widely applied for food, pharmaceutical, and chemical products in mesh size range from 120 to 400, such as milk powder, soya powder, cosmetic powder, slimming tea, medical powder, etc.

Full Features:

- 1) Be able to weight, bag-making, filling, sealing, cutting, lot number automatically.
- 2) It has color control system which can get the complete trade mark design (photo electricity control system).
- 3) The machine fix stepper motor controller, its advantage is precise, needless to adjust other parts
- 4) Intelligent temperature control by temperature controller to make heat balance better. Use bilingual display screen control system and stainless steel cabinet
- 5) Fine packaging performance, low noise, clear sealing texture and strong sealing performance
- 6) With safe plastic box on rotating blade to avoid hurting operator's hands
- 7) Need to change new temperature controller, blade& pressing mode only after 3 years continuous operation, 2 shifts a day and other parts is still good and safe freely
- 8) With printer (to be able to code the date and batch number) and rotating blade (be able to adjust the length of bag and shape of bag notch edge packing).

Model	ES-60G
Packing speed	20-50bags/min
Bag-making size	(W)80mm
Filling range	10-60g
Packing materials	OPP/ CPP PET/PE
Film width	220mm
Film thickness	0.025-0.10mm
Air consumption	0.36m ³ /min 0.6mpa
Power supply	AC220V 50-60Hz 1.5kw
Machine dimensions	(L)700×(W)850×(H)1650
Machine weight	300kg
