

YGJ-1 Automatic Snapcap Capping Machine

YGJ-1 Automatic Snapcap Capping Machine is based on foreign high technology, specially further designed for. It has many advantages: small volume, steady operation, lower noise, high rate of capping and artistic appearance. It has cap unscrambler to realize the automatic operation. It will not pollute enviromet, also meet the GMP standard.

Technical parameters:

- ◆ Suitable container diameter: $\Phi 40\text{-}\Phi 100\text{mm}$
- ◆ Suitable container height: 80-320mm
- ◆ Production capacity: <4000 bottle/hour
- ◆ Suitable caps diameter: $\Phi 20\text{-}\Phi 40\text{mm}$
- ◆ Power supply: 220v/50HZ
- ◆ Total power: 1KW
- ◆ Machine dimension(L×W×H): 2000×500×1500(mm)
- ◆ Weight: 300kg
