

JAT-U400 Square Bucket type U Spiral Vibrating Feeding Machine

1. Hopper wall thickness 1.5mm frame material 304 stainless steel;
2. The screw barrel is selected for the pipe diameter of 102 sanitary tubes, and the polishing process is added in the tube;
3. The feed screw is full welding and polished, the blade thickness is 2mm, the feeding speed is fast, and the dust free flying;
4. Vibration device, prevent powder accumulation, ensure that the material is smooth. Vibrating feeder preferred listing brand Zhejiang "Wolong";
5. RV reducer transmission, high efficient operation, long service life, high bearing capacity;
6. "U" type tube on the feeder tube cover can easily be segmented opening, screw segment disassembly, convenient cleaning equipment, installation.

技术参数 Technical parameters

型号 Model	JAT-U400
提升量 To enhance the volume	4M ³ /小时
料仓容积 Hopper volume	400L
上料管径 Feeding diameter	φ141
提升高度 Lifting height(standard)	2M ~ 3M
电源、功率 Power	单相380V 50HZ 2.8KW
整机重量 The whole weight	130KG
粉仓体积 Bunker volume	L1160×W890×H1000mm
提升角度 Enhance the angle	45°(可定制30°-60°)
