

JFP Vertical Capsule Sorting Polisher

The machine has the multi-function of polishing, lifting and sorting capsules. Entrance of the machine can be connected to various types of capsule Filing machine's outlet. Its outlet can also be connected with metal detector. Realization an even machine production mode of polishing, lifting, sorting, testing and monitoring.

Features:

1. With the capsule polishing function. Yield up to 8000Pcs/min.
2. Could connect with the product outlet of capsule filling machine.
3. Automatic select out low weight, empty capsule, fragment and separated capsules.
4. Use fast-loading connection structure, quick and easy to disassembly and installation
5. Brush removable, easy to clean machine, no dead ends, meets cGMP requirements.

Specifications:

Productivity	8000 Pcs/min
Power supply	220V 50HZ 1A
Power	180w
Compressed air pressure	<0.3Mpa
Compressed air flow	>270L/min
Vacuum flow	>1000L/min
Vacuum degree	>0.13mbar
Weight	138KG
Overall dimensions	682×600×1646 mm
