

Barcode Printing Machine

Printing and Labeling goods of packaging information, related coding, production date, serial number information, shipping information or sale channels on the packing case in word, code and bar code form, to facilitate the tracking in the whole transporting and distribution process.

Features & Specification

1. Coupled with computer and special software to control, quickly operation, clear display and prompt error completely.
2. Flexible editing software: Compatible label editing software in Chinese and English, edit the printing content high flexibility;
3. Simple operation: Man-machine touch screen, easy to operate;
4. Adopt the world famous brand electrical components ensure the stability and reliability Of the whole machine.
5. Adapt to third-level packaging in food, medical, daily chemical and other industries.

Technical Parameter:

Detection Speed	40 Boxes /Min
Bottle Size	600X400 Mm
Error Detection Rate	≤5/1000
Power	220V 50/60HZ,0.5KW
Air Pressure	0.4~0.6MPa
Dimension	1500x800x1600mm
Total Weight	120KG
