

High-Speed Blister-Cartoning Link Machine DHL600

The production capacity of DHL600 High-Speed Blister-Cartoning Link Machine can reach 600 blisters/min and 300 cartons/min, suitable for mass production. The whole production line with the concept of advanced technology, original create link machine (1-5) blister cartoning production new pattern, can complete switchover (1-5) blister cartoning within one minute, high speed transferred by intelligent flex picker, complete blister cartoning;

Parameters:

| Project | Unit | Parameter |
|--------------------------|---------------------------|-----------------------------|
| Capacity | Blisters/min | 300-600 |
| Range of stroke | mm | 20-120 |
| Packing material | Pharmacy PVC | mm (0.2-0.4)×320 |
| | PTP alu foil | mm (0.02-0.05)×320 |
| Capacity | Cartons/min | 100-300 |
| Packing material | Box dimension(L×W×H) | mm (70-190)×(35-75)×(15-70) |
| | Cardboard of box required | g/m ² 300-350 |
| | Leaflet dimension | L×W (100-260)×(100-190) |
| Leaflet pap required | g/m ² | 50~70 |
| Clean compressed air | pressure | 0.5~0.7Mpa |
| Air consumption | m ³ /min | ≥0.6 |
| Power | | AC380V 50HZ 27KW |
| Water chiller for moulds | | 1.5P with 60L/h consumption |
| Overall dimension(L×W×H) | mm | 11000×1800×2150 |
| Net weight | kg | 9200 |
