

## Automatic Glue Industrial Labeling Machine For Round Bottle TZJ-1DY-A

This labeling machine is widely used for agrochemical, pharmaceutical, chemical and foodstuff industries etc. For labeling circular bottles, adopts automatic device, easy to operate. It can easily adjust for small and big bottles labeling, such as change gaskets. It has many advantages, for example: low failure rate, good using and high speed of labeling.

### TECHNICAL PARAMETERS:

Items	Performance
Power supply	AC 380V; 50Hz
Power	2.2Kw
Suitable bottle size	Φ35mm-Φ110mm
Maximum label size	240mm (length) x 100mm (width)
Production Capacity	0 ~120 bottles/hour (adjustable)
Machine weight	About 500 Kg
Machine dimension (LxWxH)	3000mm x 950mm x 1000mm
Pneumatic (air-operated) source	<0.5 Mpa clean and stable compressed air
