

Semi-Automatic Tube Filling Machine

Features

- Trouble free working
- Smooth functionality
- Robust construction
- Simple operation
- Accuracy is approximately equal to +/-1%

Technical Data:

Machine Dimension	800x1300x1800
Tube diameter	12.5mm to 50mm
Machine weight	500kg
Power Requirement	4.5kw
Air requirement	6kg
Chilled water requirement	5°C chilled water
Filling volume	3gms to 250gms
Machine construction	SS304
Filling Construction	SS316
Machine Speed	30 to 40 tubes/minute
