

## High Efficiency Pharmaceutical Herbal Mixer CH-10/50/100/150/200

The High Efficiency Pharmaceutical Herbal Mixer is used for mixing the powdery or pastel supplies, making the material of different qualities.

High Efficiency Pharmaceutical Herbal Mixer characteristic is that the type of mix is horizontal groove-type thick liquid, mix thick liquid as coherent axle, easy to wash. The parts contacting with the material are all made of stainless steel.

High Efficiency Pharmaceutical Herbal Mixer use the rotation of the thick liquid leaf in the material groove to mix different qualities material evenly. Round groove mixer material groove and thick liquid leaf turn round backward at the same time, the efficiency of the groove-type mixer than general type and more even it can mix.
