

Automatic Screw Capping Machine MTCY-100

Application

Used for Linear Packaging line for all kinds of Screw Caps and Press Caps, Theft Proof Caps, automatically Feeding Caps and Capping

Features:

- Automatic Feeding with Feeding Plate and Feeding Track
- Automatic Linear Capping for all kinds of caps
- High precision and good stability
- The machine is operated by touch screen. Easy and convenient.
- E-stop button can stop machine right away once the machine has any problem.
- The capping head can screw cap and press cap. It can change mode by touch screen.

Workflow:

- 1) Manually put bottles on the conveyor
- 2) Automatic feeding caps from lift machine or vibration plate
- 3) Bottles conveyed to capping machine to screw/press cap automatically
- 4) Collect bottles with a turn table(optional)

Parameter

Speed	1000-1500 bph (customizable)
Capping accuracy	>99%
Caps applicable	Screw caps or press caps
Caps' diameter range	20-80mm (can be customized)
Power supply	220V 50hz 1kw
Air supply	0.6MPa
Bottle applicable	a wide shape range
Caps feeding device	Lifter or vibration plate
Feature	PLC, touch screen
