

FBL-360 Front & Back Labeling Machine

FBL-360 is economical, and easy to operate, equipped with HMI touch screen & PLC control system. Built in microchip makes fast and easy adjustment and changeover.

This automatic labeling system is ideal for cylindrical, flat and square container.

Features

- Double sides labeling efficiently
- Suitable for a wide scope, such as cylindrical, flat, square and rectangle bottle etc.
- HMI system easy to operation
- Variable speed with step motor
- Stainless steel frame
- Stamping coding device attached

Technical Parameters

Labeling speed	50-100 bottles/min
Bottles size	can be customized based on the requirements
Power	1000 W
Power supply	AC, 220V/50HZ 1 phase or customized
Net weight	450 kg
Overall size	2400x1350x1500 mm (Length x Width x Height)
