

AL510 Square Wrap Around Labeler

AL510 Square Wrap Around Labeler is designed for wrap square containers. When labeling, the containers will automatically rotate to allow the labeling device to apply the pressure for labeling. Suitable for medicine, food, beverage, and chemical industries. Can be used for plastic, glass, metal and other round containers/bottles. With its innovative design, its operation is so simple that even a primitive man can use.

Suitable Industry: Pharmaceutical / Medical, Biotechnology, Food, Beverage, Cosmetic, Chemical, Plastic...etc.

Specifications:

Labeling Speed	30~60 bpm
Labeling Drive	5-phase stepper motor
Control Interface	Touch Screen Control Panel
Core Diameter	76mm (3")
Label Roll O.D.	380mm Max. (15")
Voltage Supply	AC 110/220V 50/60Hz 1Phase
Power	800W
Dimension	(L)2000mm × (W)1200mm × (H)1320mm
Weigh	Approx. 170kg
Material	Frame and main components are made from SUS#304 stainless steel and anodized aluminum.
