

Automatic Shrinkable Label Inserting Machine XYLC 1000 AJ

XYLC 1000 AJ was designed for the high speed production line. The thickness of label can be from 30mic, 35mic, 40mic to 60mic. High efficient for synchronization between 2 heads. This machine can be the cap seal and bottle application in the same time. Plenty reel system can support more efficient mass production.

Specification:

XYL-1000 AJ

- Power source : 3P / 220V ~ 415V
- Production rate : 1000BPM(label length 180mm)
- Range of bottle diameter : Ø25 ~ Ø130
- Label insertion length : 25 mm ~ 220 mm
- Range of label thickness : 0.035 ~ 0.08 mm
- Material : PVC, PET, OPS
- Total Power : 30 KW
- Machine dimensions (L × W × H) : 2600 × 1330 × 2100 mm

Safety/Quality Approvals

- CE regulation

Features

Machine constructed by stainless steel with strong support for the sleeve insertion. This machine was designed for the high speed production line. The Max speed can reach about 1000 bpm (bottle per mins) for two heads and 800 bpm for one head. AB, Siemens control system supply available.
