

Lotion Filling Machine

This filling and capping machine is used in cosmetics and skin care industry like lotion, toner, skin cream ect. Servo motor filling and gripper type capping make compatibility.

Features :

1. The skin cream filling capping machine is suitable for plastic and glass bottles and containers.
2. Small occupation area and save operator cost.
3. Process: Put bottles by hand- Auto filling- Put caps by hand- Auto capping- Auto picking up finished bottles
4. Using multipurpose holder for anti falling down.
5. Gripper type capping head is controlled by servo motor. Makes better reliability and homogeneity for torque.
6. Suitable for various of bottle. Easy for operation
7. Meet GMP requirement. Including 4 filling heads(filling at twice) and 2 capping heads.

Parameters:

- Filling Volume : 0-1000ml
- Production capacity : 35-50BPM
- Filling Precision : $\leq \pm 1\%$
- Hopper volume: 35L
- Power supply : 380V 50HZ
- Air Supply : 0.5-0.8Mpa
- Power : 2.5 kw
- Weight : 400 kg
- Dimension : L3300*W1350*H1800mm
