

## *KX-01 Automatic Box Opening Machine*

The carton opener is a machine that can automatically shape the carton and seal the bottom tape. The unpacking speed can reach 8-12 boxes/minute, with good quality and affordable price. This box opening machine is widely used in various industries at home and abroad, such as food, medicine, toys, tobacco, daily chemicals, and electronics.

### **Features**

1. Adopt high-quality electrical components and pneumatic components; adopt a vertical storage cardboard method, which can replenish the carton board at any time without stopping the machine.
2. The rational design of the bottom sealing machine, synchronous absorption and forming, the folding bottom and the back cover are simultaneously formed at one time; the volume is light, the machine performance is precise and durable, the operation process is vibration-free, the operation is stable, the life is long, and the efficiency is high.
3. It is suitable for packaging of the same carton size at the same time. If you need to change the carton size, you can adjust it manually. The required time is 1-2 minutes.
4. Install a transparent plexiglass protective cover to automatically stop when the door is opened to avoid accidental operation
5. It can be operated on a stand-alone machine or used in conjunction with an automated packaging line.

## Technical Parameter

<b>Machine type</b>	<b>KX-01</b>
Power supply/power	220V 50/60HZ 400W
Applicable carton	L: 250-450 W: 150-400
	H: 120-350mm
Open box speed	8-12 boxes/minute
Tape width	48/60mm (use one alternatively)
Use air source	6-7kg
Machine size	L2000*W1900*H1650mm
