

DGJ (1204/2406/3608) High Speed Automatic Sauce Filling and Seaming Machine

This machine adopts piston filling principle. The machine is equipped with the agitation system and automation system, like three-point level control system, stirring system, No can No filling system and so on.

The main electric elements adopt “Mitsubishi” PLC, frequency converter and proximity sensor. Set up production speed through touch screen, the machine alarm automatically of common malfunction and show corresponding malfunction position, and then PLC judge to continue to work or stop according to the serious level.

This series of machines are suitable for filling of all different sauces (like ketchup, chili paste, jam and so on), the high concentration beverage with flesh or granular, thick material and liquid.

主要技术参数 Main technical parameters

型号 Model	DGJ1204	DGJ2406	DGJ3608
封罐头数 The number of capping head	4	6	8
灌装头数 The number of filling head	12	24	36
适用罐高 Can Height	39-160mm	39-160mm	39-160mm
适用罐径 Can Diameter	Φ52-99mm	Φ52-99mm	Φ52-73mm
灌装容量 Filling capability	70-850g (目前三种缸径)	70-850g (目前三种缸径)	70-450g (目前三种缸径)
生产能力 Production capacity	80-200(b/min) (与灌装量等有关)	80-400b/min (与灌装量有关)	80-600b/min (与灌装量有关)
电机功率 Power	5.5kw	7.5kw	11kw
重量 Weight	4000kg	5800kg	6880kg
外形尺寸 Dimension	2800 × 1600 × 1900mm	3214 × 2104 × 1900 mm	3650 × 2150 × 2200 mm
