

RXC-660 Full Automatic Plastic Cup Making Machine

The machine is suitable for using the plastic-sheet heating to a certain temperature after pressing the heat-sheet, different plastic containers of cup, bowl, boxes. The machine is controlled by PLC, using the Touching-Screen. Servo motor can be added in the Sheet-Feeding Device and Forming Device according to the customer's order. The all line is high in automatic production level, has fast speed in it, the forming square area is large. Material: PP PS PVC & PET

Power	80KW
Sheet Material	0.4-1.6mm (PP, PS, PVC, PET)
Sheet Width	500-660mm
Forming Square (max.)	600X320mm
Forming Depth	125mm
Speed	20-30times/min
Air Consumption	0.6-0.7Mpa 2m ³
Dimension	9.5X1.35X2.2m
Weight	About 6T

额定功率	80KW
适用片材	0.4-1.6mm (PP, PS, PVC, PET)
片材宽度	500-660mm
最大成型面积	600X320mm
最大成型深度	125mm
生产效率	20-30次/分钟(可调)
耗气量	0.6-0.7Mpa 2m ³
外形尺寸	9.5X1.35X2.2m
重量	约6吨
