

Automatic Divider Machine SFA-2104-N

Features:

- Human-Computer Interaction Design.
- The Operation panel can save a few sets of data, easy to set and read the data for different type of bottles.
- The large processing range comprises PVC, PE, PET and Glass Bottles etc.
- The interior setting of P.L.C. can be amended and set from the operation screen.
- Minimization of the changeover times, in order to quickly switch from a production to another one.
- Easy and intuitive start and control operations and user-friendly technology.

Specifications:

Power Source	According to Installation Place, Local Electricity Sources
Power Capacity	1.8 kw
Air Pressure	5.0 ~ 7.0 kg / cm ²
Air Flow Consumption	50 L / min
Machine Dimensions	L : 3030 mm x W : 1437 mm 0x H : 2038 mm
Machine Weight	1200 kg
Dividing Method	300 bottles/ min
Processing Capacity	English / Chinese Display System
