

Vertical Packing Machine BT-60K

Be used for packing grain material in field of food, medicine and chemical such as oatmeal, beans, nuts, sugar, salt, rice, dates, walnuts, almond, and so on.

FEATURES:

1. Bag form method: 3 side seal, 4 side seal, back side seal
2. All the works of bag-making, measuring, filling, sealing, cutting and heat printing codes can be done automatically.
3. It can be equipped with Moden computer control or imported PLC control.
4. Drive engine are adopted to control the length of bag and the position of trade mark
5. Intelligent degree control and PID adjuster promise when maximum

PACKING MATERIALS:

BOPP/Polyethylene, Aluminum/Polyethylene, Paper/Polyethylene, Polester/Plated alumnium/Polyethylene, Nylon/CPP ETC.

TECHNICAL DATA:

BAG SIZE	W:30-140mm L:30-150 mm
CAPACITY	30-60bag/min
FILLING RANGE	3-150ML/g
TOTAL POWER	220V/50HZ/ 1.5KW
WEIGHT	400KG
DIMENSION	900x700x1700mm
