

Wrapping Machine for Hard Candies in Folding Wrap JH-F710

Wrapping machine for hard candies in bunch. The machine is suitable to wrap round dies-formed or deposited sweets. The JH-F710 is able to be equipped with a sorting station to eliminate sugar dust, chips and broken pieces. An efficient feeding is achieved by the approved plate feeding system. The machine is provided for the use of one wrapping material.

Special features:

- PLC control
- Saving of wrapping material by "no product – no paper" device
- Infinitely variable adjustment of the twist gripper oscillation
- The main core parts adopt modern high precise type intermission gear-dividing and cam-driving.
- Quick and simple size change by a few adjustments only
- Quick settle and feed product to gripper by two-ways rotating disc
- Separate switch cabinet
