

Linear Paste Filling Machine (LPF-6)

Automatic filling machine is suitable for liquid without carbonated, semi fluid qualitative filling. Counting of bottles inlet qualitative filling, bottles outlet is done automatically. Especially suitable for cosmetic, edible oil, lubrication oil. It is an ideal equipment for foodstuff, medical, cosmetic, fine chemical, pesticide industries.

1. It adopts advanced mechanical and electrical integration technology. Any filling specification can easily be done by changing parameters in touch screen. Not only the filling volume of 6 to 12 filling heads can be changed substantially, but also each filling head volume can be changed finely.
2. With touch screen technologies, which make operation of machine steadier, convenient, the human machine interface is friendlier. Photoelectric sensor, approaching switch and other elements are using international famous brand. No bottle no filling, the machine can stop automatically and alarm when bottles get blocked.
3. It uses the method of submerging filling; various sealing rings used can meet different characteristics of products requirements.
4. The design and production of this machine is in accordance with GMP standard requirements. Easily dismantle, clean and maintain. The parts which contact filling products are made of high quality stainless steel. The whole machine is safe, environmental, sanitary, adapting to various kinds of working places.

Technical Parameters:

Model no	LPF-6
Capacity	15-40 PCS/ MIN
Voltage	110/220V 50/60HZ
Power	500W
Filling Accuracy	≥99%
Volume of Tanks	500KGS
Air Pressure	0.4-0.6Mpa
Filling Range	25-60ML,50-125ML.100-250ML,200-500ML,400-1000ML,900-2500ML,2200-5000ML
