Flow Packaging Machine for Cake (F-DB600)

Main Features:

*Flow Packaging Machine for cake (F-DB600) adopts frequency control to control packing speed, servo system control bag length. Temperature of sealer is controlled independently, Various Wrapping Film suitable.

*It intuitively shows the parameter and has the menu operation, which makes the operator easier to use. Automatic laying material, pressing flat, cooling, cutting and forming. Double transducer control, flexible bag length cutting, operator needn't to adjust the unloading working, saving time and saving films.

*The human-machine operation, convenient and quick parameter setting. The key parts of this Flow Packaging Machine for cake (F-DB600) are adopted of stainless structure, in accordance with food QS and medicine GMP health requirements.

*High sensitivity optical electric color mark tracking and digital input cut position which makes the sealing and cutting more accurate. Separate PID control to temperature, suitable for various packing materials.

Technical Parameters:

Packing Speed	50-300 pcs/min
Bag Length	50-60mm(according to the cutter)
Packing product dimension	90-420(L)*32-200(W)5-65(H)mm
Total Power	3.5kw
Machine Dimension	4050*1050*1530mm
Total Weight	950kg
Voltage	380V,50HZ

| Packing Materials | OPP,CPP,PET, Aluminum   plating film, any hot sealing film |
