

## *FX-AVG Liquid Filler*

The device for filling in wine, fruit juices, liquid condiment, mineral water, tea, emulsion pesticide liquid, using a gravity fed, 12 and filling, filling height, spacing adjustable, applicable to a variety of containers, independent of each of the filling pipe flow for fine-tuning. Filling capacity of 25-1000ml, PLC control, stable and reliable, HMI screen display, running state at a glance, easy to operate. Food grade stainless steel frame and Teflon tube connection, with GMP. High precision pneumatic valve to ensure the 500 thousand no leakage, stable operation, no bottle no liquid automatic alarm, shutdown, safe and reliable.

Shanghai Star Machinery Equipment Manufacturing Company to provide another 8, 4 linear liquid filling machine, to meet the needs of all types of users.

### **Parameter:**

Model	FX-AVG
Capacity	0~60 b/min
Precision	$\leq \pm 1\%$
Air pressure	4~6kg/cm <sup>2</sup>
power	AC220V 50Hz
Filling head	2~12
Applicable specifications	50~5000ml
